RINEHART TARGETS® UNVEILS NEW X-BOW BAG TARGET SPECIFICALLY DESIGNED FOR TODAY'S ULTRA-FAST CROSSBOWS

New Bag-Style Target Helps Sighting in Crossbows Fast and Simple

Janesville, WI — Rinehart Targets®, manufacturers of the most durable and life-like archery targets in the industry, releases a new bag-style target specially designed for today's ultra-fast crossbows, handling speeds up to **450fps**.

"Today's crossbows are extremely fast and they need a target that can handle those speeds season after season," said James McGovern, President of Rinehart Targets. "The all-new X-Bow Bag not only can do just that, but also make sighting in your crossbow incredibly fast and simple. We are confident that this new target will make you a better shot with your crossbow."

The X-Bow Bag target has one side printed with a **Minute of Angle (MOA)** grid target face. This allows you to sight in your crossbow fast and simple, and it allows you to check your sights all through the season – a crucial step for ethical hunting. The reverse side has 12 target dots allowing for long target life and lots of options when you're shooting. This is a great target when there are multiple shooters taking aim.

The science behind Rinehart's bag targets is a big reason why they stand out amongst competitors. The new Rinehart X-Bow Bag features Rinehart's exclusive Dual Layered Power Band Technology. It all starts with a polyester outer shell that is UV resistant. This helps with target life, as polypropylene, typically used by other brands, breaks down in sunlight. Rinehart uses polypropylene wrap as a second layer for long-term durability, shot after shot. The inner target has a plastic cover to keep water out of the cut-foam blend. The inner core is made from durable arrow-stopping burlap, capable of handling arrow speeds up to 450 feet per second!

The new Rinehart X-Bow Bag measures 18-inches tall, by 18-inches wide and 12-inches thick. It has an easy-carry handle and grommets for hanging the bag. The target is portable enough to take to hunting camp, and durable enough to withstand season after season of high-speed shots. MSRP is \$49.99.

About Rinehart Targets
